### SURFING

Cape Town has an abundance of surf spots along our coast, from coves with small, gentle swells, to expansive beaches boasting big, bone-crunching waves. Rather surprisingly, the typically icy Cape Peninsula water temperatures rise during the winter time, making the months of June, July and August ideal for a surf. Whether you are a beginner, intermediate or advanced surfer, there's a break perfect for you.

### CYCLING

#### CHAPMANS PEAK

There's nothing quite like free-wheeling down the coastal roads of the Cape Peninsula with the wind billowing through your hair and the sun on your back. Cape Town's natural environment is abundant with tarmac roads, single tracks, switch backs and jeep tracks to suit everyone from the leisure cyclist to the technical rider. There's never been more of an excuse to swap the car for your own steam.

### WILDLIFE

In Cape Town, any day trip in the Cape Peninsula can include sightings of penguins, baboons, whales and other wild animals — even when "safari" isn't on the day's agenda.

### BIG FIVE

For a Big 5 experience, we can help you arrange your safari to one of South Africa's premier game parks.
